

Raju Kumar Maurya

Data Analyst

📞 7081245433 ✉ rkmaury860@gmail.com 📍 Noida, India 🌐 <https://www.linkedin.com/in/raju-innovationtech/>

SUMMARY

Data Analyst with hands-on experience in SQL, Power BI, Excel, Python, Tableau, and Machine Learning. Skilled in data cleaning, data analysis, data visualization, dashboard development, business intelligence, and reporting. Experienced in transforming large datasets into actionable insights through statistical analysis, exploratory data analysis (EDA), and interactive dashboards to support data-driven decision-making.

TECHNICAL SKILLS

TECHNICAL SKILLS

Programming Languages: Python, SQL, C++

Data Analysis: Data Cleaning, Data Transformation, Exploratory Data Analysis (EDA), Statistical Analysis, Data Validation

Data Visualization & BI: Power BI, Tableau, Matplotlib, Dashboard Development, KPI Reporting, Data Storytelling

Machine Learning: Scikit-learn, Predictive Modeling, Data Preprocessing, Feature Engineering, Model Evaluation

Libraries & Frameworks: Pandas, NumPy

Tools & Platforms: Jupyter Notebook, Google Colab, Git, GitHub

Database Technologies: SQL, MySQL

Microsoft Office: Microsoft Excel, Microsoft Word, Microsoft PowerPoint

Core Competencies: Data Analysis, Business Intelligence, Reporting, Problem Solving, Analytical Thinking, Data-Driven Decision Making

EDUCATION

Bachelor of Technology in Computer Science & Artificial Intelligence

Oct 2022 — May 2026

Greater Noida Institute of Technology, Greater Noida

PROJECTS <https://github.com/raju-innovation-tech> <https://raju-full-stack-developer.netlify.app/>

Ola Ride Booking Analysis | SQL | Power BI

- Analyzed 100K+ ride booking records to identify booking trends, customer behavior patterns, cancellation drivers, and revenue opportunities.
- Utilized SQL to perform data cleaning, transformation, aggregation, and exploratory analysis, generating insights across bookings, vehicle categories, payment methods, and customer segments.
- Designed and implemented an interactive Power BI dashboard comprising 10+ business KPIs and visual reports, including Ride Volume Analysis, Booking Status, Revenue Performance, Customer Ratings, Driver Ratings, and Cancellation Analysis.
- Delivered actionable insights on ride completion rates, cancellation reasons, top customer segments, vehicle type performance, and payment preferences, supporting data-driven operational and business decisions.

PhonePe Transaction Analysis Dashboard | Power BI | SQL

- Analyzed **270K+ transactions** worth **₹3M+** to evaluate transaction trends, service performance, payment success rates, and customer transaction behavior across multiple PhonePe services.
- Utilized **SQL** for data cleaning, transformation, validation, and exploratory data analysis, enabling accurate reporting and business insights from large-scale transaction data.
- Designed and developed a **5-page interactive Power BI dashboard** featuring **10+ KPIs and visualizations**, including Transaction Trends, Service Performance, Payment Status Analysis, Failed Payment Monitoring, and Revenue Tracking.

- Identified key drivers behind **11K+ failed transactions** and delivered actionable insights through dynamic filtering, drill-through analysis, and interactive reporting to support data-driven decision-making.

Multi-Disease Prediction System Using Machine Learning

Tech: Python, Scikit-learn, XGBoost, Random Forest, SVM, Streamlit, SQLite

- Built ML models for predicting 6+ diseases, including Diabetes, Heart Disease, Kidney Disease, Liver Disease, and Parkinson's Disease.
- Implemented and compared XGBoost, Random Forest, Logistic Regression, SVM, and Decision Tree algorithms to improve prediction performance.
- Contributed ~70% to the project, handling data preprocessing, feature engineering, model training, testing, and hyperparameter tuning.
- Built and integrated a Streamlit-based web application with SQLite for real-time disease prediction and user interaction.

PUBLICATIONS

MediPredict AI: Multi-Disease Health Risk Prediction with Explainable AI

- Published in *International Journal of Research Publication and Reviews (IJRPR)*, Volume 7, Issue 5, 2026.
- Presented an Explainable AI-based framework for multi-disease prediction.

PATENT

Smart Traffic Management Device

- Received a **Certificate of Registration of Design** from the **Patent Office, Government of India** under the **Designs Act, 2000**.
- Recognized for innovation in intelligent traffic management and traffic control system design.

ACHIEVEMENT

- Published research paper "**MediPredict AI: Multi-Disease Health Risk Prediction with Explainable AI**" in the *International Journal of Research Publication and Reviews (IJRPR)*, 2026.
- Completed multiple industry-recognized certifications in Data Analytics, Machine Learning, and Artificial Intelligence.

CERTIFICATIONS

- Cisco Networking Academy – Data Analytics Essentials
- Deloitte Data Analytics Job Simulation – Forage
- Python – IITM Pravartak Certified (GUVI)
- C & C++ Programming — E & ICT Academy, IIT Kanpur
- Data Structures and Algorithms — E & ICT Academy, IIT Kanpur
- AI For India 2.0 – GUVI & Skill India Digital
